

ACKNOWLEDGEMENTS

The authors would like to thank the following people for their help with the preparation of the book: Dermot Petersen, Carron Finnan, Ekow Oppon, Anthea Van Blerk and Christopher Seebregts. The authors would also like to thank the following people for their contributions to the work at the health facilities, laboratories, and research sites: Justen Manasa, Lungani Ndwandwe, Xolile Kineri, Zakhona Gumede, Siva Danaviah, Sureshnee Pillay, Johannes Viljoen, Prevashinee Padayachee, Clifford Makhanya, Ntando Hlophe, Thabani Mtshali, Philile Dlamini, Kevi Naidu, Glen Malherbe, Pethole Mahasha, Susan Malfeld, Gisela van Dyk and Sinnah Lebogo.

Publication of the book was made possible through the generous funding of the European Commission (SANTE 2007 147–790, PI: Prof. Chris Seebregts), the National Research Council of South Africa (Unlocking the Future 61509), the US Centre for Diseases Control via CAPRISA (project title: Health Systems Strengthening and HIV Treatment Failure (HIV-TFC)) and the US Centre for Disease Control via the School of Public Health at the University of the Western Cape (COAG U2G/PS001083-04, project title: Human Capacity Development to Address HIV/AIDS in South Africa). Richard Lessells and Tulio de Oliveira are supported by the Wellcome Trust (grant numbers 090999/Z/09/Z and 082384/Z/07/Z).

Disclaimer

Although every attempt has been made to ensure that the information in this book is accurate and up-to-date, the authors and publishers accept no responsibility for any loss or damage resulting from use of the information herein.

It is the responsibility of the individual clinician or health care worker to abide by national and local guidelines and protocols regarding management of HIV and TB. Information regarding drug indications and dosages should be checked with the national or local formulary, or with the pharmaceutical package insert.

The authors declare no competing financial interests with regards to any material discussed within the HIV and TB Drug Resistance and Clinical Management Case Book.
